NEUROPHYSIOLOGY
Volume 3, Numbers 1-6, 1971
(A translation of Neirofiziologiya)

Volume 3, Number 1 January-February, 1971

	Engl.	Russ.
Facilitation of Reactions of Cortical Neurons to Cortical and Peripheral Stimulation after Tetanization of the Brain Surface – L. L. Voronin	1	3
Afferent Signal Transformation at Subcortical Levels of the Visual System – I. A. Shevelev	13	9
Effects of Excitation of the Central Nuclei of the Cerebellum on the Activity of Neurons in the Pyramidal Tract – R. I. Pogosyan, V. G. Grigoryan, and V. V. Fanardzhyan	16	22
Neuronal Activity of Raphe Nuclei of the Brain Stem in the Cat – S. P. Narikashvili, V. S. Arutyunov, and T. G. Tatevosyan	24	32
Corticofugal Postsynaptic Influences on Red Nucleus Neurons – V. V. Fanardzhyan and Dzh. S. Sarkisyan	32	43
Synaptic Potentials of Digastric-Muscle Motoneurons – E. V. Gura, Yu. P. Limanskii, and A. I. Pilyavskii	39	52
Influence of Forelimb Afferents on the Activity of Lumbar Spinal-Cord Motoneurons – N. A. Adamovich, A. N. Borgest, S. A. Evdokimov, and P. A. Kiselev	44	58
Inhibition of Spinal Reflex Responses in the Last Period of Embryogenesis – E. V. Maksimova	51	68
Origin of the Long Positive Potential in the Cat Superior Cervical Ganglion – A. Ya. Ivanov and V. I. Skok	57	76
Electron-Microscopic Analysis of Synapses of the Interior Mesenteric Sympathetic Ganglion in the Afferent Chain of Sympathetic Reflexes – I. A. Bulygin and L. I. Archakova	64	84
Investigation of the Nature of Electrical Responses of Horizontal Cells of the Fish Retina – Yu. A. Trifonov, L. M. Chailakhyan, and A. L. Byzov	70	89
Responses of Neurons in the Pigeon's Optic Tectum to Visual Stimuli – V. I. Gusel'nikov, É. D. Morenkov, and I. P. Gutsu	78	99

Volume 3, Number 2 March-April, 1971

Evoked Potential of the Human Cerebral Cortex to Perceptible and Imperceptible Sound Stimuli – É. A. Kostandov and G. I. D'yachkova	85	115
Exciting Effects of Recurrent Collaterals of Pyramidal Tract Neurons – V. M. Storozhuk	92	123
Receptive Fields of the Cat Corpus Geniculatum Laterale – V. D. Glezer, V. A. Ivanov, and T. A. Shcherbach	98	131
Characteristics of Electrical Responses by the Medial Geniculate Bodies in Vespertilionidae and Rhinolophidae to Ultrasonic Stimuli with Different Frequencies – A. G. Vasil'ev and N. G. Andreeva	104	138
The Slow Negative Wave of the Evoked Potential of the Frog Midbrain Tectum – Yu. B. Manteifel'	110	145
The Neuronal Organization of the Dentate Nucleus of the Cerebellum – A. S. Amatuni and V. V. Fanardzhyan	117	154

	Engl.	Russ.
Organization of Somatic Nerve Projections in Various Cortical Areas of the Cat Cerebellum – Yu. I. Arshavskii, M. B. Berkinblit, I. M. Gel'fand, and O. I. Fukson	126	166
Activation of Various Areas of the Ventral Horn of Lumbar Segments during Stimulation of the Motor Cortex – E. T. Blagodatova and S. A. Evdokimov	133	175
Evoked Activity in the Ventral Horn of the Lumbar Segments of the Spinal Cord during Cortical Inhibition of Cortical Motor Responses – E. T. Blagodatova, S. A. Evdokimov, and K. S. Predtechenskaya	140	185
Development of Activity in Intercostal-Muscle Motor Nuclei in the Thoracic Section (Intact and Deafferentated) of the Spinal Cord – Yu. L. Vigorov	147	194
Investigation of the Frequency of Impulse Discharges of Human Motoneurons during Voluntary Muscle Contraction – R. S. Person and L. P. Kudina	152	200
Changes in Direct Current Input Resistance in Horizontal Cells of Fish Retina during Excitation – E. M. Maksimova and V. V. Maksimov	160	210

Volume 3, Number 3 May-June, 1971

Effect of Reticular Formation of Hippocampal Neurons (Field CA_1) – M. N. Livanov, K. I. Dudaeva, and O. S. Vinogradova	167	227
Evoked Impulse Activity in Neuronally Isolated Cortex – M. M. Khananashvili and É. G. Zarkeshev	174	236
Investigation of Habituation Reaction of Neurons of the Cat Motor Cortex – A. A. Pirogov	181	245
Excitability Cycles and Rhythmic Responses of Visual Cortical Neurons to Diffuse and Punctiform Light Stimuli – A. Ya. Supin	187	252
Cerebral Impedance with Different Kinds of Anesthesia – V. B. Golovchinskii, K. Yu. Bogdanov, and É. D. Rapoport	193	260
Rubrospinal Synaptic Influences of the Lumbar Motoneurons of the Rat – N. R. Gurevich and T. V. Belozerova	198	266
Study of Neuronal Structures of the Brain Stem which Produce Rapid Reactions in Reticulo-Spinal Pathways – I. S. Bezhenaru	205	274
Evoked Potentials of the Medulla Oblongata of the Skate in Response to Stimulation of Lateral Line Nerves – O. B. Il'inskii, L. D. Enin, and N. K. Volkova	213	284
Centrifugal Effects on Amacrine Cells in the Frog's Retina – A. L. Byzov and I. A. Utina	219	293
Asymmetrical Dendritic Fields of Retinal Ganglion Cells – E. G. Shkol'nik-Yarros	225	301
Role of Tonic Motor Units in Flexor Reflex Evoked by Impulsation from a Focus of Inflammation – L. N. Smolin	230	308
Theoretical Analysis of Mechanisms of Nerve Impulse Conduction along Myelinated Fiber after a Functional Change in the Properties of Individual Nodes – B. I. Khodorov and E. N. Timin	237	316
Dynamic Properties of Neurons Sensitive to Visible Movement in Scarabaeid Beetles (Coleoptera scarabaeidae) – L. I. Frantsevich and P. A. Mokrushov	245	325

Volume 3, Number 4 July-August, 1971

Postsynaptic Potentials of Neurons of the Cat Auditory Cortex – F. N. Serkov and E. Sh. Yanovskii	251	339
Reactions of Neurons of the Orbitofrontal Cortex to Stimulation of Optic Thalamic Nuclei – V. N. Kazakov	260	350
Change in Reactions of Visual Cortex Neurons to Light Flash upon Hypothalamic and Reticular Stimulation – L. P. Latash and É. A. Kuman	267	359

Engl./Russ.

Excitatory and Inhibitory Frequency Zones of Responses of Posterior Declivus Cerebelli Neurons — I. A. Vartanyan 274 364
Characteristics of Electrical Responses by Cochlear Nuclei in Vespertilionidae and Rhinolophidae to Ultrasonic Stimuli with Various Fill Frequencies — A. G. Vasil'ev 282 379
Chemical Specificity of Synapses of Frog Midbrain Tectum — V. M. Vinogradova and G. D. Smirnov 288 386
Functional Changes in Neurosecretory Cells of the Anterior Hypothalamic Nuclei after Stimulation of the Midbrain Reticular Formation — E. A. Vashchenko 294 394
Synaptic Links of Propriospinal Neurons of the Lumbar Section of the Cat Spinal Cord — P. G. Kostyuk, V. A. Maiskii, and L. A. Savos'kina 300 401
Reticulospinal and Vestibulospinal Synaptic Effects on the Lumbar Motor Neurons of the Monkey — A. I. Shapovalov, Z. A. Tamarova, O. A. Karamyan, and G. G. Kurchavyi 308 408
Synaptic Effects of Contralateral Somatic Afferents on Spinal Motoneurons — S. A. Evdokimov and V. I. Saf'yants 316 418
Peculiarities of Orthodromic Inhibition in Pacemaker Neurons in Helix pomatia — E. N. Sokolov and T. A. Tavzarashvili 322 426
Analysis of Mechanism of Conduction of Nerve Impulses during the Relative Refractory Phase by a Mathematical Model of the Giant Squid Axon — E. N. Timin and B. I. Khodorov 328 434

Volume 3, Number 5 September-October, 1971

Synaptic Transmission in Renshaw Cells — R. Ryall 335 451
Inhibition in the Neurons of the Somatosensory Cortex and the Possibility of Intracortical Propagation of Excitation — V. M. Storozhuk 346 465
Convergence of Signals of Various Sensory Modalities on the Neurons of the Sensorimotor Zone of the Rabbit Cerebral Cortex — L. L. Voronin and V. L. Ézrokhi 353 474
Reactions of Neurons of Orbitofrontal Cortex to Stimulation of Limbic System Formations — V. N. Kazakov 360 484
Neuronal Activity of the Pulvinar of the Thalamus in the Cat — V. I. Maloletnev, V. S. Arutyunov, and S. P. Narikashvili 366 491
Background Activity of Neurones of the Amygdaloid Complex and Its Changes in Response to Hippocampal Stimulation — N. V. Vol'f 373 500
Characteristics of Electrical Activity of Olfactory Bulb Neurons of Fish — K. G. Gusel'nikova, L. E. Tsitolovskii, and A. A. Potapov 378 505
Corticofugal Influences on the Motoneurons of the Trigeminal Nucleus — Yu. P. Limanskii, A. I. Pilyavskii, and E. V. Gura 383 512
Relationship between the Amplitudes of Initial Potentials of Primary Responses on the Surface and in the Depth of the Cortex — K. M. Kullanda, G. F. Kalistratov, and A. F. Kalistratov 390 520
Electric Reactions of the Auditory Cortex Areas in Bats to Ultrasonic Stimuli with Various Fill Frequencies — L. M. Kotelenko and A. G. Vasil'ev 395 526
Activity of Caudal Mesenteric Ganglion in Relation to Its Impulsation (Age Aspect) — T. F. Kostin 401 533
Response of the Neurons of the Snail (Helix pomatia) to Orthodromic Stimulation and Microapplication of Acetylcholine — G. G. Arakelov 408 543
Electrical Transmission between Nonsymmetrical Neurons in the Leech Ganglion — O. D. Tereshkov and M. S. Fomina 413 550

Volume 3, Number 6 November-December, 1971

Multisensory Convergence on Neurons of the Motor Cortex in Unanesthetized Cats — L. L. Voronin and V. L. Ézrokhi 419 563
Responses of Cortical Neurons to Viscero-Somatic Stimulation — A. S. Batuev and B. G. Gafurov 428 574
Effect of Neurotropic Drugs on Cortical Evoked Potentials — V. V. Zakusov and R. U. Ostrovskaya 434 582
Analysis of Evoked Discharges in Hypothalamic Neurons to Somatosensory, Acoustic, and Photic Stimulation — O. G. Baklavadzhyan, A. G. Arakelyan, and L. A. Balasanyan 442 592
Convergence of Corticospinal and Rubrospinal Influences on Cervical Motoneurons — K. V. Baev 447 599
Pattern of Human Motoneuron Activity during Voluntary Muscular Contraction — R. S. Person and L. P. Kudina 455 609
Responses of Bulbar Respiratory Neurons to Stimulation of Receptive Fields in the Air Passages — V. S. Vasilevskii 463 620
Hemodynamic Changes during Electrical Stimulation of Some Bulbar Cardiovascular Structures — M. I. Gurevich and L. N. Shapoval 471 631
Excitation and Inhibition in the Visual Center of Rana temporaria — V. I. Gusel'nikov and A. S. Luk'yanov 476 637
Thresholds and Latencies of Retinal Ganglion Cell Responses in Cats to Local Stimulation of Various Parts of Their Receptive Field — L. I. Tanengol'ts 481 644
Inhibition in the Fish Olfactory Bulb — K. G. Gusel'nikova, L. E. Tsitolovskii, and A. A. Potapov 486 650
